# **GOLF COURSE**

**JULY 2024**

The month of June was great for our local golf course. We have seen increases in membership and steady play throughout this time. The course continues to improve in all areas around the course. We have been able to stay a step ahead with our watering and mowing schedules and will continue to do so. We are still on schedule with our spray regimen and the greens are looking great. We decided to push back the Verti cutting of the greens until closer to the Junior Auxiliary tournament of August 3<sup>rd</sup> and 4<sup>th</sup>.

The OFD Golf tournament had an awesome atmosphere and a great time had by all participants. 132 golfers enjoyed a great weekend of competition and a smoothly run tournament. The course was in great shape and with the help of the OFD we continue to make this tournament a premier date in the golf region.

Ducks Unlimited will bring back their tournament this year with a date set for August 17<sup>th</sup>. This is a one-day tournament and is a great time with fantastic prizes.

All equipment is running well with the exception of our progressive mower. We should have the new spindle next week sometime and be back operational same day.

We have a rather large tree we will be taking out on the driving range in the coming weeks and have been trimming various trees around the course.

I have also been contacted by BRS about the possibility of maybe purchasing more vouchers this year as they have given all 400 of their corporate packages out already. I will keep you updated as I find out more.

There is still lots of golf is left this season and look forward to the upcoming tournaments and everyday golf outings we have seen thus far.

Any questions please feel free to give us a call or come see us at your Osceola Municipal Golf Course

## **Osceola Street & Sanitation Department Report for 2024**

**City Council Meeting:** 7-15-24

**From:** Ed Richardson

**Subject:** Daily Operations

### **June Updates**

#### **Street, Sanitation, Compose, Mosquito Control Department Update**

**Sanitation department** Operations in the Sanitation department is going according to plan. We didn't have any truck issues for the month of June. The Commercial front end load truck is operating fine. In July the front drivers side windshield should be in and we'll replace it.

**Street department** – Street department had a influx of limbs and trees being cut throughout the city. We are working extremely hard on trying to support each citizen and neighborhood by cleaning this debris up. Please be patient with us because just having one knuckle boom truck makes it hard to hit every like we desire. We will clean the city up even if we must work overtime.

**Forestry mulcher** – Once we hit a dry spell, we'll be over in the ditches with the mulcher. We're using it to chop up branches that we take to the compost as of now.

**Ditches** – We cleaned and sprayed some ditches, still working on getting them under control.

**Compose** – Compose is starting to fill up. We will be looking for other areas to compose in the future.

**Luther Whitfield Cleanup Crew** Mr. Whitfield's team is continue to cut overgrown lots and cleaning the city. We will also get support from Community Punishment.

To: City of Osceola

Osceola, AR 72370

Chief Hill and esteemed decision makers,

Thank you for your consideration of a new fire apparatus from Rosenbauer and Goldy's. In response to your inquiry, I offer the following clarifications:

Service – We have a full-time service center in Tupelo, MS (160 miles from Osceola) and in Batesville, AR (118 miles from Osceola). Multiple EVT technicians are available at both locations. We are also capable of mobile service. This allows us to conduct 95% of all warranty & service needs on-site. More importantly, though, is that we treat warranty & other service differently from most of our competition. Our goal is simply to get your problems fixed as quickly as possible, rather than treating parts & service as a profit center. This allows us the flexibility to work with your city shop, a local technician, a shift mechanic, or anyone else qualified to take care of minor problems so you don't have to wait for a technician to travel to you. Sure, there may be some needs that require an EVT, but why wait for an EVT to replace a taillight when the local guy can do that in 20 minutes? We have the capability & flexibility to make those issues much easier on you! Out-of-service units get the highest priority treatment and are very rarely down more than 24 hours. Engine and transmission warranty service will obviously be handled at a Cummins or Allison service center and do not fall under the scope of Rosenbauer warranty.

Price – The price of the apparatus you specified is currently \$1,762,165.00, assuming no advance payments are made, with full payment due at delivery.

Delivery – Rosenbauer is currently estimating 650 days for construction of the proposed unit, subject to change due to issues beyond our control. We are starting to see some improvements in the supply chain problems that have plagued most industries for the last few years, so actual build time could be less.

In summary, we stand ready to design and build you a high-quality unit that will bring with it a customer satisfaction experience like no other. Let us show you why Rosenbauer is the largest fire apparatus builder in the world and why Goldy's Fire Apparatus is growing so fast!

Sincerely,

*Steve Golding*
